PROCEEDINGS OF THE INTERNATIONAL CONFERENCE ON MICROMECHANICS OF GRANULAR MEDIA / CLERMONT-FERRAND / 4-8 SEPTEMBER 1989

Powders and Grains

Edited by
J.BIAREZ
Ecole Centrale de Paris

R.GOURVÈS
CUST de Clermont-Ferrand

A.A.BALKEMA / ROTTERDAM / BROOKFIELD / 1989
Contents

Preface XI

An introduction to the study of the relation between the mechanics of discontinuous granular media and the rheological behaviours of continuous equivalent media – Application to compaction
J.Biarez & P.Y.Hicher 1

1 Geometry

The large disorder of granular matter 17
E.Guyon

Plane sections and straight crossings of granular media 23
G.Auvinet

Geometric scale effect in granular media 29
G.Auvinet & D.Bouvard

Pore size distribution of granular media 35
G.Auvinet & D.Bouvard

Prediction of the packing density of granular mixes from its grading 41
F.de Larrard

Structure of simulated packed beds containing solid particles of different sizes 47
E.Dickinson, S.J.Milne & M.Patel

Some stereological results on grain packings 55
A.Gervois, L.Öger, M.Lichtenberg & J.-L.Bouillot

Morphology in particulate media 63
D.A.Grivas & M.M.Skolnick

Morphology-based image processing for pavement surface analysis 67
D.A.Grivas & M.M.Skolnick

Microdeformation analysis of granular media by holographic interferometry – Method and preliminary results 75
P.Jacquot

5 Industrial aspect for the powder and grain

Elasto-plastic behaviours in the production of sintered alloys
G.P.Brunel & M.Eudier

Mechanical behaviour of carbon agglomerates in relation to the mechanics of discontinuous media
J.Biarez & E.Bard

Influence of water negative pore pressure on the flow of granular materials in silos
J.Biarez, J.M.Fleureau, Indarto, S.Taibi & M.I.Zerhouni

Investigation of some characteristics of the Goodman-Cowin equations of granular media flow
O.Cohen & R.Y.Qassim

Determination of sand grain angularity from a flow test
J.DeJaeger

Uniaxial compression as a model for studying the shaping of food powders
F.de Monredon

Relevance of various mechanical strength measurements of pharmaceutical compressed tablets
E.Doelker, D.Mordier & S.Kopp

Creep behaviour of spray ice
L.Domaschuk, D.Shields, R.Frank & E.Funegard

Filtration of a granular medium by textiles
Y.H.Faure & P.Gendrin

On the rheology of metal powder during cold compaction
J.Gollion, D.Bouvard, P.Stutz, H.Grazzini, C.Levaillant, P.Bauduin & J.P.Cescutti

Influence of granulometry cut on rheology of aluminium alloy powders during forging
H.Grazzini, C.Levaillant & B.Munar

Analysis of physical phenomena in a silo
Y.Hatamura & T.Takeuchi
Theoretical and experimental studies of stresses in full scale silos at the Chartres experimental base
A. Khelil & J.C. Roth

Analysis of the flow of granular materials whilst gravitationally emptying a silo – A study of the experimental and theoretical velocity fields
A. Khelil, D. Weisse & J.C. Roth

Flow properties of powders as determined by a triaxial cell
L. Lancelot, J.C. Robinet & N.G. Stanley-Wood

Centrifuge modelling of the flow of a granular medium
P. Lepert, D. Ranaivoson & J.L. Gourdon

Flowability of stored granular food products
M. P. Luong

Propriétés mécaniques du sel meuble
J. Oueller, R. F. Chapuis & D. E. Gill

Heat transfer influence on the behaviour of a wall-granular medium interface – Application to granular products stored in silos
L. Thibaud & J.P. Maye

Segregation in slugging gas fluidized beds
C.M. van den Bleek, J.C. Schouten, P.J. M. Valkenburg & H.A. Masson
