Geotextiles, Geomembranes and Related Products

Editor
G. DEN HOEDT
AKZO Industrial Systems bv, Arnhem

VOLUME I
Steep slopes and walls / Embankments on soft soil / Roads and railroads / Filtration and drainage / Erosion control

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1990
# Table of Contents

1. **Steep slopes and walls**

   - Full-scale test on a geotextile reinforced retaining structure
     
     B.R. Thamm, B.Krieger & J.Krieger
     
     3

   - Upstream dam construction: An instrumented test fill evaluation
     
     Stephan M. Gale
     
     9

   - Reinforced slopes: Field behaviour and prediction
     
     F.Haji Ali & H.E.Tee
     
     17

   - Reinforcement with continuous thread: Technical developments and design methods
     
     M.Khay, J.P.Gigan & M.Ledelliou
     
     21

   - Stability of retaining wall reinforced by continuous fibers during earthquakes
     
     Masami Fukuoka, Shigeru Tani, Tsuneo Yamashita, Shun-ichi lhar, Hideo Ishizaki & Yoichi Takano
     
     27

   - Time dependent behaviour of geotextile reinforced clay walls
     
     K.Fabian
     
     33

   - Lime stabilized cohesive soil as a fill for geotextile reinforced retaining structures
     
     E.Güler
     
     39

   - Steep reinforced embankment using geogrid – Laboratory pull-out test of geogrid and its finite element analysis
     
     Toshiaki Katagiri, Hiromi Haneda, Mamoru Moriyama, Tanehide Tsuruoka, Sumio Toriumi, Kyozo Takaoka & Tetsuo Yahaba
     
     45

   - Instrumented field performance of a 6 m geogrid soil wall
     
     M.R. Simac, B.R. Christopher & C. Bonczkiewicz
     
     53

   - Validation of the ‘displacements method’ on an experimental reinforced wall at failure
     
     A.Toshioka, Ph. Delmas, J.P. Gourc & Ph. Gotteland
     
     61

   - Performance of a geogrid in a cohesive soil test embankment
     
     D.C. Sego, J.D. Scott, E.A. Richards & Y.(Bill) Liu
     
     67

   - Experimental study on prototype polymer grid reinforced retaining wall
     
     
     73

   - Geotextiles for the support of steep slopes: Approval procedure
     
     H. Schardin-Liedtke
     
     79

   - Reinforced soil retaining structures, Norwegian experiences
     
     A.F. Knutson
     
     87

   - Soil-reinforcing mechanisms of nonwoven geotextiles
     
     S. Resl
     
     93

   - The monitoring of non-woven geotextiles by strain gages
     
     S.H. Lee, E. Ruei & S. Tonus
     
     97

   - Load test on a retaining wall reinforced with geosynthetics
     
     Giulio Dondi
     
     101

   - Alleviating bridge approach settlement with geosynthetic reinforcement
     
     Jonathan T.H. Wu & H. Bassam Helwany
     
     107
An analytical approach to compute design loads of reinforced earth embankments
V.R. Mallimadugu & M.B. Rao

Inclusion of reinforcement forces in stability analysis
J.R. Greenwood

Design of granular materials reinforced by continuous thread or chain
N.T. Long & C. Stefani

Soil reinforced with continuous filaments
R.B. Weerasinghe & A.F.L. Hyde

Design and construction of a steep geogrid reinforced embankment: A case history
Robert L. Goering

Stability evaluation of reinforced embankment with consideration for deformation
H. Abe & Y. Kiyomoto

Grid-reinforced retaining wall model tests
Richard J. Bathurst & Peter M. Jarrett

Reinforced earth retaining wall in cohesive soil
R.C. Sonpal & G. Desai

Seismic behavior of the reinforced embankment by geotextiles
Akira Nakaniishi & Masahiko Sakaguchi

Steep slopes reinforced with a planar geotextile having a rigid facing
O. Murata, M. Tateyama & F. Tatsuoka

Loading tests and long term observation of geotextile reinforced retaining wall
I. Yamaoka, T. Nishigata, K. Yasuda & K. Mondori

Design and construction of a reinforced earth embankment for protection against rock falls
A. Morino & P. Grasso

Geotextile ammunition walls
Phil Phillips

Securing of loose rock slopes by means of geotextiles
Claus Göbel, Gerhard Hoy & Peter Böttcher

2. Embankments on soft soil

Implications of adopting an allowable geosynthetic strain in estimating stability
R.K. Rowe & B.L.J. Myletville

Parametric studies of the behaviour of a reinforced embankment
C.C. Hird & C.M. Kwok

Subaqueous use of high-strength geotextiles
S.A. Fritzinger

Fabric reinforced containment dike, New Bedford superfund site
P. Schimelfenng, J. Fowler & D. Leshchinsky

Geotextile reinforced piled embankments
C.J. F.P. Jones, C. R. Lawson & D.J. Ayres

An analytical approach to the design of soil geosynthetic systems
J.N. Mandal & R.K. Dixit

Bearing capacity of subsoil with a layer of reinforced earth
A. Florkiewicz

Settlement of geosynthetic reinforced ground
Madhira R. Madhav & Chandan Ghose

Reinforcement of a sub-marine clay
S.S. Iengar

Planning and the design method for earth spreading using geotextile on the very soft ground
Yohei Higuchi & Yoshiharu Watari
Design of road embankments over mineral workings using geotextile membranes
Donald S. Cook

Road embankment in the proximity of a huge landslide originating on the edge (west side) of ENEL's open-pit xyloid lignite mine, located in Castelnuovo Sabbioni, Arezzo, Italy
D. Distefano & G. Bordoni

Geotextile use in major marine reclamation project Fremantle WA
D. Margaretic

3. Roads and railroads

Design of reinforced unpaved roads for small rut depths
Guy T. Houlsby & Richard A. Jewell

Design of geotextile reinforced paved roads and parking areas
J. B. Sellmeijer

Dynamic loading of geotextile/soil-systems
R. Floss, H. Laier & G. Bäu

Clogging of geotextiles under pumping loads
J. Lafluer, J. Mlynarek & A. L. Rollin

Abrasion of geotextiles in railway track applications
M. R. Hausmann, S. E. Pitsis & G. J. Ring

Test results on exhumed railway track geotextiles
Gerald P. Raymond & Richard J. Bathurst

Geotextile-reinforced surface dressings
G. Morel, H. Perrier, M. Requirand & J. Perfetti

Geotextile reinforced sprayed seal roads in rural Australia
M. Sutherland & P. Phillips

Paving grade fabrics in spray seals
M. A. Sadlier, I. Gibb & P. Finlay

Finite element studies of the mechanics of reinforced unpaved roads
H. J. Burd & C. J. Brocklehurst

Reinforced soil working platform for offshore jacket fabrication yard
K. Y. Yong, S. F. Chan & K. K. Lee

Test on trafficability of a low embankment on soft ground reinforced with geotextiles

Filtering action of non-woven geotextiles under dynamic loading
J. McMorrow

Bending and tensile reinforcement of unbound roads
A. McGown, K. Z. Andrawes, G. Werner & Z. Yusuf

Geotextiles in road construction: Summary of an OECD report
R. T. Murray & A. McGown

Use of the FEM for the single reinforced two-layer system
R. Floss & G. Gold

Bearing capacity of unpaved road reinforced by geotextile
T. Nishigata & I. Yamaoka

Reinforced haul-roads: Trials at Bothkennar, Scotland
A. R. Dawson & P. H. Little

Behavior of geotextile-reinforced soil under cyclic loading
Philippe L. Bourdeau, Kevin K. Miskin & John M. Fuller

Long-term behaviour of geotextile systems in railway track formation
J. Hillig & K. Lieberenz

4. Filtration and drainage

Field study on long term geotextile filter performance

J Mlynarek, J Lafleur & J B Lewandowski

A contribution to the modelisation of porometry of fibrous structures

M Calonnier, B Lager & M Sotton

A new approach to geotextile selection

K R Legge

Laboratory measurement of geotextile filtration characteristics

N D Williams & S M Luettich

Long term filtration behavior of nonwoven geotextiles

S Qureshi, R M Kogler & S K Bhatia

Research into the functional hydraulic properties of geotextiles

W Diericks & L van der Sluys

Filter criteria based on pore size distribution

G R Fischer, B R Christopher & R D Holtz

Filtration opening size of geotextile: The parameters influencing the pore size determination

A L Rollin, J Mlynarek & A Vidovic

Geotextile filter performance with fine grained soils

C R Lawson

Investigation of geotextiles as filter in hydraulic fill tailings dams

C B Abadjiev & I S Kanchev

Correlative analysis of the physical and hydraulic properties of geotextiles

D Adolphe, J Y Drean, D Sigli, Y H Faure, P Gendrin & J P Gourc

On the behaviour of geotextiles as filters

D A Cazzuffi, A Mazzucato & N Moraci

Geotextile filtration performance test

C M Montero & L K Overmann

Better understanding of suffosion, clogging and blocking – Critical analysis

Frank Donckers

Comparison of characteristic pore sizes determined with index tests using sand or glass beads

H J Verheij

Systematic quality control of vertical drainage

W F J de Jager & J P Oostveen

Geosynthetic drains against liquefaction

Y Watari & T Fujiwara

Composite geotextiles in draining trenches for stabilization of landslides

A Olcese, C Vesco & P Fantini

Effect of vertical drain barrier on road behaviour in freeze-thaw periods

H Perrier, A Dupas, J Perfetti & P Thevenet

Discharge index tests on vertical drains

J P Oostveen & G H Troost
Geotextile intrusion into geonets 351
Bao-Lin Hwu, C. Joel Sprague & Robert M. Koerner

Trenchless drainage with textile percolation materials 357
F. Müzel, P. Böttcher, D. Garbe & A. Gora

Investigation of drainage filters for geotextiles 361
Tongkang Tao

Validation of a new type draining structure through laboratory and field investigations 362
P. Brochier, Y. H. Faure & Y. Matichard

Study of significance of physical and hydraulic properties of geotextiles used as envelopes in subsurface drainage systems 363
André L. Rollin, Jacek Mlynarek & Gilles Bolduc

Comparative testing for geotextile and composite transmissivity 364
M. G. Dickson

Drainage and geotextile filter function in disturbed soils 365
Y. H. Faure, P. Gendrin & G. Werner

Drainage performance of geotextiles 366
Masahiro Sato, Mikio Futaki & Toshimi Tatsui

Comparative field trials of fin drains 367
S. P. Corbet & D. M. Farrar

Application of nonwoven geotextiles in agricultural drainages 368
G. Jedryka, Z. Krzywosz & J. Sokolowski

A soil improvement method using vacuum-loaded horizontal drains for very soft reclaimed ground 369
H. Shinsha & Y. Watari

Road subsoil drains: Fine grained soils. A realistic approach 370
G. R. W. East & K. C. Hudson

Buried constructions and groundwater – Protection by geosynthetics 371
C. Legrand

5. Erosion control 375

A design approach for preformed erosion control systems 379
T. S. Ingold & J. C. Thomson

Composite erosion control system for an high cut slope 381
T. Collotta, P. Heiniger, P. C. Moretti & A. Paviani

Erosion control by hydrodynamically sandtight geotextiles 385
M. Klein Breteler & H. J. Verhey

Turf reinforcement for soft armor erosion protection 391
R. G. Carroll, Jr. & Marc S. Theisen

Rip-rap revetments using geotextiles, measurements and numerical simulation 397
A. Bezuijen, H. J. Köhler & H. Schulz

Comparative study of geosynthetics for erosion control 403
A. Cancelli, R. Monti & P. Rimoldi

A theory for the non-linear permeability of geotextiles 409
H. den Adel & M. Th.de Groot

Investigations of multi-layer geotextiles 410
W. Mühring, S. Kohlhase & F. Saathoff

Geotextiles replacing granular filters in a placed block revetment 411
A. Bezuijen, U. Sparboom & J. Grüne

Concrete mats in hydraulic engineering and experience 412
Walter Monnet
Wave induced tensile forces in revetments
M.B. de Groot, P. Meijers & K. J. Bakker

The use of geotextiles and related products in reinforced vegetative bank protections
D. A. Cazzuffi, M. Lamb, A. Petri, P. G. M. Silence & E. Van Hijum
